

Kružna biciklistička ruta provest će vas prostranim i ravnim dijelom poluotoka i upoznati vas s prirodnim i povijesnim ljepotama područja. Početak je rute ispred ureda TZ-a u naselju Privlaka, a nastavlja se uz obalu do TN Zaton i do povijesnog grada Nina. Staza dalje prolazi pored ninskog blata do vidikovca Sabunike odakle prelazi u središte poluotoka u kojemu možete vidjeti mnoge povijesnih građevina (sv. Kata, sv. Vid, bunar Sokolar). Ruta završava u luci «Stari porat» koja je dio povijesne jezgre, nekadašnje mjesto polaska i dolaska privlačkih sabunjara i ribara. Za dodatno upoznavanje poluotoka ili stvaranje vlastite rute koristite se skretanjima obilježenim na karti.

A circular cycling route takes you across the wide and flat part of the peninsula and shows you the natural and historical beauties of the region. The route starts before the office of the Tourist board in the village of Privlaka, continues on by the shore, leading to the tourist settlement Zaton and the historic town of Nin. The route then passes by the mud of Nin, continues to the viewpoint Sabunike and leads to the center of the peninsula, where you can see many historic objects (St. Kata, St. Vid, Sokolar draw-well). The route ends in the port of "Stari porat", a part of the old core that used to be the departure and arriving point of Sabunjar dwellers and fishermen in Privlaka. If you wish to investigate the peninsula further or create your own route, you can use some of the detours marked on the map.
